American Journal of Physiology:
Cell Physiology

No. 1. JANUARY 1989

5-HETE: uptake, distribution, and metabolism in MDCK cells
J. A. Gordon, P. H. Figard, G. E. Quinby, and A. A. Spector C1

Diacylglycerol metabolism in isolated aortic smooth muscle cells
D. L. Severson and M. Hee-Cheong C11

Effect of amino acid deprivation on initiation of protein synthesis in rat hepatocytes
W. V. Everson, K. E. Flaim, D. M. Susco, S. R. Kimball, and L. S. Jefferson C18

Initiation of protein synthesis in a cell-free system prepared from rat hepatocytes
S. R. Kimball, W. V. Everson, K. E. Flaim, and L. S. Jefferson C28

Response of aequorin-loaded platelets to activators of protein kinase C
J. A. Ware, M. Saitoh, M. Smith, P. C. Johnson, and E. W. Salzman C35

Electrogenic Na^+-ascorbate cotransport in cultured bovine pigmented ciliary epithelial cells
H. Helbig, C. Korbmacher, J. Wohlfarth, S. Berweck, D. Kühner, and M. Wiederholt C44

Capillary and size interrelationships in developing rat diaphragm, EDL, and soleus muscle fiber types
D. Smith, H. Green, J. Thomson, and M. Sharratt C50

ADP release from myosin in permeabilized smooth muscle
T. M. Butler, D. S. Pacifico, and M. J. Siegman C59

Inhibition of colonic Na^+ transport by amiloride analogues
R. J. Bridges, E. J. Cragoe, Jr., R. A. Frizzell, and D. J. Benos C67

Rates of synthesis and degradation of Na^+-K^+-ATPase during chronic ouabain treatment
B. M. Rayson C75

Volume-sensitive, Cl-dependent K transport in resealed human erythrocyte ghosts
W. C. O'Neill C81

Effect of ANP on sustained aldosterone secretion stimulated by angiotensin II
C. M. Isales, W. B. Bollag, L. C. Kiernan, and P. Q. Barrett C89

Dependence of stress on cross-bridge phosphorylation in vascular smooth muscle
P. H. Ratz, C.-M. Hai, and R. A. Murphy C96

Eicosapentaenoic and dihomo-γ-linolenic acid metabolism by cultured rat mesangial cells
L. A. Scharschmidt, N. B. Gibbons, and R. Neuwirth C101

SR Ca loading in cardiac muscle preparations based on rapid-cooling contractures
D. M. Bers C109

Modulation of angiotensin II binding sites in neuronal cultures by mineralocorticoids
C. Sumners and M. J. Fregly C121

Improved propagation in myometrium associated with gap junctions during parturition
S. M. Miller, R. E. Garfield, and E. E. Daniel C130

Cyclic nucleotide-mediated effects of ANF and VIP on flounder intestinal ion transport
S. M. O'Grady C142

Relationship between cytosolic free Ca^{2+} and Na^+-Ca^{2+} exchange in aortic muscle cells
J. Bingham Smith, T. Zheng, and L. Smith C147

Inhibitory effect of somatostatin on vagal motoneurons in the rat brain stem in vitro
J. Nabekura, Y. Mizuno, and Y. Oomura C155

Spermidine uptake by type II pulmonary epithelial cells in primary culture
R. Kameji, S. R. Rannels, A. E. Pegg, and D. E. Rannels C160

Effect of amiloride on the poorly selective cation channel of larval bullfrog skin
S. D. Hillyard and W. Van Driessche C168

Metabolic alterations induced in cultured skeletal muscle by stretch-relaxation activity
S. Hatfaludy, J. Shansky, and H. H. Vandenburgh C175

Regulation of bovine glomerular endothelial cell growth in vitro
B. J. Ballermann C182

Insulin stimulates in vivo cell proliferation in white adipose tissue
A. Géloën, A. J. Collet, G. Guay, and L. J. Bukowiecki C190

Differing effects of apical and basolateral adenosine on colonic epithelial cell line T_{84}
K. E. Barrett, P. A. Huott, S. S. Shah, K. Dharmsathaphorn, and S. I. Wasserman C197

Effect of gentamicin on phospholipid metabolism in cultured rabbit proximal tubular cells
L. S. Ramsammy, C. Josepovitz, B. Lane, and G. J. Kaloyanides C204

SPECIAL COMMUNICATIONS

Temperature-controlled perfusion apparatus for microscope using transparent conducting film heater
S. Toyotomi and Y. Momose C214

ANNOUNCEMENTS C218

No. 2. FEBRUARY 1989

Glucocorticoid receptor activation in isolated perfused rat hearts
S. M. Czerwinski, E. E. McKee, and R. C. Hickson C219

Activation of an apical Cl^- conductance by Ca^{2+} ionophores in cystic fibrosis airway epithelia
N. J. Willumsen and R. C. Boucher C226

Regulation of intracellular calcium by cell pH in vascular smooth muscle cells
M. S. Siskind, C. E. McCoy, A. Chobanian, and J. H. Schwartz C234

Intracellular Ca requirements for stimulus-secretion coupling in parietal cell
P. A. Negulescu, W. W. Reenstra, and T. E. Machen C241

Regulatory volume decrease by cultured renal cells
C. Knoblauch, M. H. Montrose, and H. Murer C252

Cigarette smoking decreases interleukin 1 release by human alveolar macrophages
G. P. Brown, G. K. Iwamoto, M. M. Monick, and G. W. Hunninghake C260

Stimulation of K-Cl cotransport in rat red cells by a hemolytic anemia-producing metabolite of dapsone
M. Haas and J. H. Harrison, Jr. C265

Effects of general anesthetics on current flow across membranes in guinea pig myocytes
E. Niggli, A. Rüdisüli, P. Maurer, and R. Weingart C273

Cross-bridge dephosphorylation and relaxation of vascular smooth muscle
C.-M. Hai and R. A. Murphy C282

Acetylcholine-induced intracellular acidosis in rabbit salivary gland acinar cells
K. R. Lau, A. C. Elliott, and P. D. Brown C288

Endothelial cells from human umbilical vein secrete functional transcobalamin II
E. V. Quadros, S. P. Rothenberg, and E. A. Jaffe C296

Effects of charge on membrane processing in the proximal nephron
D. R. Peterson, S. Kubillus, W. Binstock, and D. Zikos C304

Characterization of β-adrenergic receptors in cultured bovine tracheal gland cells
J. M. Madison, C. B. Basbaum, J. K. Brown, and W. E. Finkbeiner C310

Myosin dephosphorylation during rapid relaxation of hog carotid artery smooth muscle
S. P. Driska, P. G. Stein, and R. Porter C315

Adaptation to P_i deprivation of cell Na-dependent P_i uptake: a widespread process
B. Escoubet, K. Djabali, and C. Amiel C322

A human airway smooth muscle cell line that retains physiological responsiveness
R. A. Panettieri, R. K. Murray, L. R. DePalo, P. A. Yadvish, and M. I. Kotlikoff C329

Immune mediators increase adherence of T-lymphocytes to human lung fibroblasts
F. Hampson, M. Monick, M. W. Peterson, and G. W. Hunninghake C336

Changes of tracheal smooth muscle stiffness during an isotonic contraction
C. Y. Seow and N. L. Stephens C341

Detection of La^{3+} influx in ventricular cells by indo-1 fluorescence
G. A. Peeters, O. Kohmoto, and W. H. Barry C351

Ca-induced Ca release in malignant hyperthermia-susceptible pig skeletal muscle
T. Ohta, M. Endo, T. Nakano, Y. Morohoshi, K. Wanikawa, and A. Ohga C358

Insulin-induced hyperpolarization in mammalian skeletal muscle
S. T. Iannaccone, K.-X. Li, N. Sperelakis, and D. A. Lathrop C368

Inositol lipid turnover and compartmentation in canine trachealis smooth muscle
C. B. Baron, M. Pring, and R. F. Coburn C375

Hepatocyte β-adrenergic responsiveness and guanine nucleotide-binding regulatory proteins
J. A. García-Sáinz, M. E. Huerta-Bahena, and C. C. Malbon C384

Na-Ca exchange in ferret red blood cells
M. A. Milanick C390

Molecular characterization of rat skeletal muscle myosin light chain kinase
B. P. Herring, M. H. Nunnally, P. J. Gallagher, and J. T. Stull C399

A kinetic model of superoxide production from single pulmonary alveolar macrophages
K. A. DiGregorio, E. V. Cilento, and R. C. Lantz C405

Homologous rat hepatic protease inhibitor genes show divergent functional responses to inflammation
S. J. Schwarzenberg, J.-B. Yoon, H. L. Sharp, and S. Seelig C413

Influence of fiber type and muscle source on Ca^{2+} sensitivity of rat fibers
B. Laszewski-Williams, R. L. Ruff, and A. M. Gordon C420

Internal pH-sensitive site couples Cl^--HCO_3^- exchange to Na^+-H^+ antiport in lymphocytes
M. J. Mason, J. D. Smith, J. De Jesus Garcia-Soto, and S. Grinstein C428

SPECIAL COMMUNICATIONS

Patch clamp of sarcolemmal spheres from stretched skeletal muscle fibers
P. Stein and P. Palade C434

A simple device for rapidly exchanging solution surrounding a single cardiac cell
K. W. Spitzer and J. H. B. Bridge C441

RAPID COMMUNICATIONS

Angiotensinogen gene expression in 3T3-L1 cells
J. A. Saye, L. A. Cassis, T. W. Sturgill, K. R. Lynch, and M. J. Peach C448

Cytosolic magnesium modulates calcium channel activity in mammalian ventricular cells
Z. S. Agus, E. Kelepouris, I. Dukes, and M. Morad C452

No. 3. MARCH 1989

INVITED REVIEW

Physiological regulation at the level of mRNA: analysis of steady-state levels of specific mRNAs by DNA-excess solution hybridization
J. R. Hadcock, D. L. Williams, and C. C. Malbon C457

Electrical pacemakers of canine proximal colon are functionally innervated by inhibitory motor neurons
T. K. Smith, J. B. Reed, and K. M. Sanders C466

Dye-coupling compartments in the human eccrine sweat gland
C. J. Jones and P. M. Quinton C478

Sulfate transport in human lung fibroblasts (IMR-90): effect of pH and anions
A. Elgavish and E. Meezan C486

ANP relaxes bovine tracheal smooth muscle and increases cGMP
K. Ishii and F. Murad C495

Rat lung lectin gene expression is regulated developmentally and by dexamethasone
L. B. Clerch, P. Whitney, and D. Massaro C501

Interactions between sustained contractile activity and β-adrenergic receptors in regulation of gene expression in skeletal muscles
W. E. Kraus, T. S. Bernard, and R. S. Williams C506

Density-independent isolation of type II pneumocytes after partial pneumonectomy
B. D. Uhal, G. D. Hess, and D. E. Rannels C515

Transfer of phosphatidic acid from liposomes to cells is collision dependent
K. J. Longmuir and L. A. Malinick C522

Carbohydrate metabolism by primary cultures of rabbit proximal tubules
M.-J. Tang, K. R. Suresh, and R. L. Tannen C532

A fluorescent indicator for measuring cytosolic free magnesium
B. Raju, E. Murphy, L. A. Levy, R. D. Hall, and R. E. London C540

Inhibition of I_{Ca} in single frog cardiac cells by quinidine, flecainide, ethmozin, and ethacizin
F. Scamps, A. Undrovinas, and G. Vassort C549

A patch-clamp study: secretagogue-induced currents in rat peritoneal mast cells
M. Kuno, T. Okada, and T. Shibata C560

Interactions of TPA and insulin on Na^+ transport across frog skin
M. M. Civan, K. Peterson-Yantorno, K. George, and T. G. O'Brien C569

Autoxidation, dehydration, and adhesivity may be related abnormalities of sickle erythrocytes
R. P. Hebbel, P. A. Ney, and W. Foker C579

Membrane site of action of CO_2 on colonic sodium absorption
A. N. Charney and R. W. Egnor C584

Lack of endothelium-dependent relaxation in coronary resistance arteries of cholesterol-fed rabbits
J. A. Osborne, M. J. Siegman, A. W. Sedar, S. U. Mooers, and A. M. Lefer C591

Increase vs. decrease of calcium uptake by isolated heart cells induced by H_2O_2 vs. HOCl
T. Kaminishi, T. Matsuoka, T. Yanagishita, and K. J. Kako C598

Determinants of atrial natriuretic peptide secretion in cultured atrial myocytes
H. Iida and E. Page C608

Signal for induction of aldose reductase in renal medullary cells by high external NaCl
S. Uchida, A. Garcia-Perez, H. Murphy, and M. Burg C614

Matrix-derived soluble components influence type II pneumocytes in primary culture
S. R. Rannels, R. N. Grove, and D. E. Rannels C621

Alanine transport systems in isolated basal plasma membrane of human placenta
S. D. Hoeltzli and C. H. Smith C630

Na^+-Ca^{2+} exchange in cardiac sarcolemma: modulation of Ca^{2+} affinity by exercise
G. F. Tibbits, H. Kashihara, and K. O'Reilly C638

Density-dependent hyperpolarization in cultured aortic smooth muscle cells
M. G. Blennerhassett, M. S. Kannan, and R. E. Garfield C644

Regulation of cAMP metabolism by PGE_2 in cortical and medullary thick ascending limb of Henle's loop
A. Nakao, M. L. Allen, W. K. Sonnenburg, and W. L. Smith C652

K-independent Na-Cl cotransport in bovine tracheal epithelial cells
M. W. Musch and M. Field C658

Protection of Ca pump of coronary artery against inactivation by superoxide radical
A. K. Grover and S. E. Samson C666

Skeletal muscle growth is stimulated by intermittent stretch-relaxation in tissue culture
H. H. Vandenburgh, S. Hatfaludy, P. Karlisch, and J. Shansky C674

RAPID COMMUNICATIONS

Two distinct mechanisms are responsible for single K channel block by internal tetraethylammonium ions
D. Yamamoto and N. Suzuki C683

Tight monolayers of rat alveolar epithelial cells: bioelectric properties and active sodium transport
J. M. Cheek, K.-J. Kim, and E. D. Crandall C688

SPECIAL COMMUNICATIONS

Water movement: does thermodynamic interpretation distort reality?
A. Essig and S. R. Caplan C694

LETTERS TO THE EDITOR

Water movement: does thermodynamic interpretation distort reality?
A. Finkelstein C699

ANNOUNCEMENTS C700

No. 4. APRIL 1989

INVITED REVIEW

Effects of growth factors on myogenic differentiation
J. R. Florini and K. A. Magri C701

Effect of Li^+ substitution for extracellular Na^+ on GRF-induced GH secretion from rat pituitary cells
M. Kato and M. Suzuki C712

Effects of substrate and hypoxia on smooth muscle metabolism and contraction
I. R. Wendt C719

Na^+-H^+ exchange and pH regulation in red blood cells: role of uncatalyzed H_2CO_3 dehydration
R. Motais, B. Fievet, F. Garcia-Romeu, and S. Thomas C728

Electrogenic bicarbonate secretion by guinea pig gallbladder epithelium: apical membrane exit
C. P. Stewart, J. M. Winterhager, K. Heintze, and K.-U. Petersen C736

Effect of loop diuretics on bullfrog cornea epithelium
W. Nagel and G. Carrasquer C750

Regulation of Na^+-H^+ exchange in normal NIH-3T3 cells and in NIH-3T3 cells expressing the *ras* oncogene
N. E. Owen, J. Knapik, F. Strebel, W. G. Tarpley, and R. R. Gorman C756

Evidence for apical sodium channels in frog lung epithelial cells
H. Fischer, W. Van Driessche, and W. Clauss C764

Activation of a Cl-dependent K flux by cAMP in pig red cells
H. D. Kim, S. Sergeant, L. R. Forte, D. H. Sohn, and J. H. Im C772

Synthesis of α_2-macroglobulin by bovine adrenal cortical cell cultures
N. Kirshner, J. J. Corcoran, and H. P. Erickson C779

Intracellular Na^+ regulation of Na^+ pump sites in cultured vascular smooth muscle cells
J. C. Allen, S. S. Navran, C. L. Seidel, D. K. Dennison, J. M. Amann, and S. K. Jemelka C786

Vascular myosin expression during cytokinesis, attachment, and hypertrophy
C. L. Seidel, C. L. Wallace, D. K. Dennison, and J. C. Allen C793

Turnover of adenosine in plasma of human and dog blood
G. H. Möser, J. Schrader, and A. Deussen C799

Effects of muscle length and load on intracellular Ca^{2+} in tracheal smooth muscle
S. J. Gunst C807

Rat vs. rabbit ventricle: Ca flux and intracellular Na assessed by ion-selective microelectrodes
M. J. Shattock and D. M. Bers C813

Cellular pathways of potassium transport in renal inner medullary collecting duct
B. C. Kone, D. Kikeri, M. L. Zeidel, and S. R. Gullans C823

Agonist-specific role for Na^+-H^+ antiport in prostaglandin release from microvessel endothelium
M. E. Gerritsen, C. A. Perry, T. Moatter, E. J. Cragoe, Jr., and M. S. Medow C831

Spectrophotometry of *b*-type cytochromes in rat brain in vivo and in vitro
C. A. Piantadosi C840

Ultrastructure of *Amphiuma* distal nephron: evidence for cellular heterogeneity
D. Biemesderfer, B. Stanton, J. B. Wade, M. Kashgarian, and G. Giebisch C849

Cl-dependent K transport in a pure population of volume-regulating human erythrocytes
W. C. O'Neill C858

Aldosterone-induced proteins: purification and localization of GP65,70
H. M. Szerlip, L. Weisberg, M. Clayman, E. Neilson, J. B. Wade, and M. Cox C865

Interaction of signal transduction pathways in mediating acid secretion by rat parietal cells
J. Ostrowski and K. Bomsztyk C873

Measurement and simulation of noninactivating Ca current in smooth muscle cells
Y. Imaizumi, K. Muraki, M. Takeda, and M. Watanabe C880

Mitogenesis by serum and PDGF is independent of PI degradation and PKC in VSMC
M. Kihara, P. J. Robinson, S. H. Buck, and R. C. Dage C886

Na^+ and Cl^- transport across rabbit nonciliated bronchiolar epithelial (Clara) cells
M. R. Van Scott, C. W. Davis, and R. C. Boucher C893

Stilbene disulfonate blockade of colonic secretory Cl^- channels in planar lipid bilayers
R. J. Bridges, R. T. Worrell, R. A. Frizzell, and D. J. Benos C902

Uncoupling of cardiac cells by doxyl stearic acids: specificity and mechanism of action
J. M. Burt C913

Erythropoietin production in exhypoxic polycythemic mice
I. Seferynska, J. Brookins, J. C. Rice, and J. W. Fisher C925

Influx of L-arginine is an indicator of membrane potential in human fibroblasts
O. Bussolati, P. C. Laris, F. A. Nucci, V. Dall'asta, R. Franchi-Gazzola, G. G. Guidotti, and G. C. Gazzola C930

No. 5. MAY 1989

BRIEF REVIEW

The search for the endogenous digitalis: an alternative hypothesis
R. A. Kelly and T. W. Smith C937

Spontaneous oscillations in cytoplasmic calcium concentration in vascular smooth muscle
P. L. Weissberg, P. J. Little, and A. Bobik C951

Inhibition of *N*-glycosylation affects transepithelial Na^+ but not Na^+-K^+-ATPase transport
D. Zamofing, B. C. Rossier, and K. Geering C958

Alterations of cytosolic calcium in LLC-PK_1 cells induced by vasopressin and exogenous purines
J. M. Weinberg, J. A. Davis, J. A. Shayman, and P. R. Knight C967

Cell subpopulations within proliferative and differentiating compartments of epidermis
J. H. Pavlovitch, M. Rizk-Rabin, M. Gervaise, P. Metezeau, and D. Grunwald C977

Angiotensin receptors in pulmonary arterial and aortic endothelial cells
J. M. Patel, F. R. Yarid, E. R. Block, and M. K. Raizada C987

Role of chloride in potassium transport through a K-Cl cotransport system in human red blood cells
C. Brugnara, T. Van Ha, and D. C. Tosteson C994

Isolation and culture of HCO_3^--secreting intercalated cells
J. Van Adelsberg, J. C. Edwards, D. Herzlinger, C. Cannon, M. Rater, and Q. Al-Awqati C1004

Interleukin 1 release by human alveolar macrophages and blood monocytes
G. K. Iwamoto, M. M. Monick, L. F. Burmeister, and G. W. Hunninghake C1012

Activation of potassium channels in renal epithelioid cells (MDCK) by extracellular ATP
F. Friedrich, H. Weiss, M. Paulmichl, and F. Lang C1016

Basolateral impalement of intestinal villus cells: electrophysiology of Cl^- transport
J. F. White and D. Ellingsen C1022

Intracellular Cl^- activity and cellular Cl^- pathways in cultured human airway epithelium
N. J. Willumsen, C. W. Davis, and R. C. Boucher C1033

Cellular Cl^- transport in cultured cystic fibrosis airway epithelium
N. J. Willumsen, C. W. Davis, and R. C. Boucher C1045

Shunt resistance and ion permeabilities in normal and cystic fibrosis airway epithelia
N. J. Willumsen and R. C. Boucher C1054

Rocking promotes differentiated properties in LLC-PK_1 cells by improved oxygenation
A. Sahai, L. A. Cole, D. L. Clarke, and R. L. Tannen C1064

Cells in culture from rabbit medullary thick ascending limb of Henle's loop
E. D. Drugge, M. A. Carroll, and J. C. McGiff C1070

Single muscle fiber enzyme shifts with hindlimb suspension and immobilization
R. H. Fitts, C. J. Brimmer, A. Heywood-Cooksey, and R. J. Timmerman C1082

SPECIAL COMMUNICATIONS

Rapid isolation of total RNA from small mammal and human skeletal muscle
D. A. Hood and J.-A. Simoneau C1092

A review of water diffusion measurement by NMR in human red blood cells
M. D. Herbst and J. H. Goldstein C1097

Extracellular Na^+ electrode for monitoring net Na^+ flux in cell suspensions
H. R. Brady, B. C. Kone, and S. R. Gullans C1105

No. 6. JUNE 1989

A volume-sensitive chloride conductance in human colonic cell line T84
R. T. Worrell, A. G. Butt, W. H. Cliff, and R. A. Frizzell C1111

Cytosolic free calcium concentration in individual cardiac myocytes in primary culture
J. Y. Cheung, D. L. Tillotson, R. V. Yelamarty, and R. C. Scaduto, Jr. C1120

Isoproterenol, DBcAMP, and forskolin inhibit cardiac sodium current
K. Ono, T. Kiyosue, and M. Arita C1131

Effects of intracellular free Ca and rate of Ca influx on the Ca pump
Y.-C. Yang and D. R. Yingst C1138

8-BrcAMP-induced capacitance and transport of H_2O and Na in skin and urinary bladder of urodele amphibians
R. B. Silver and L. G. Palmer C1145

GABA-induced chloride current in rat isolated Purkinje cells
M. Kaneda, M. Wakamori, and N. Akaike C1153

Local cerebral glucose utilization during status epilepticus in newborn primates
D. G. Fujikawa, B. E. Dwyer, R. R. Lake, and C. G. Wasterlain C1160

Regulation of synthesis of prostacyclin and HETEs in human endothelial cells
B. O. Ibe, J. R. Falck, A. R. Johnson, and W. B. Campbell C1168

Metabolic fiber types of snake transversus abdominis muscle
R. S. Wilkinson and P. M. Nemeth C1176

pH effects on basolateral membrane ion conductances in gallbladder epithelium
J. S. Stoddard and L. Reuss C1184

Potential role of mitochondrial calcium metabolism during reperfusion injury
A. A. Vlessis and L. Mela-Riker C1196

Oxygen diffusion and mitochondrial respiration in neuroblastoma cells
M. Robiolio, W. L. Rumsey, and D. F. Wilson C1207

Kinetics of volume-sensitive K transport in human erythrocytes: evidence for asymmetry
D. M. Kaji C1214

Multiple calcium-mediated effector mechanisms regulate chloride secretory responses in T_{84}-cells
K. Dharmsathaphorn, J. Cohn, and G. Beuerlein C1224

Hypoxia stimulates endothelial cell angiotensin-converting enzyme antigen synthesis
S. J. King, F. M. Booyse, P.-H. Lin, M. Traylor, A. J. Narkates, and S. Oparil C1231

Forskolin activates gated Cl^- channels in frog skin
I. De Wolf, W. Van Driessche, and W. Nagel C1239

SPECIAL COMMUNICATIONS

Correction of proton and Ca association constants of EGTA for temperature and ionic strength
S. M. Harrison and D. M. Bers C1250
